high performance architectural design

We strive to improve in each new project by creating spaces with emotion and character.

Boffo is committed to detail at every level, which is why we offer you different ways of experiencing the brand – the latest one online! We've also given a lot of thought about how to enhance the sales experience with your customers.

the most valuable resource deserves respect

800x1600mm
carving + matt surface

We get closer to supply sources, promoting national and European options. We encourage reuse and recycling. Defending the planet means looking ahead, ensuring also the future of our industry

Natural resources are a gift of which humanity must show himself worthy, taking care of them. To slow down unique and finite resources exploitation, we turn our commitment to a growing use of materials renewable and responsible.

introduction punch

In Boffo, ceramic makes colour tangible, creating a surface on which tactile and visual sensations are permanently contaminated. From every combination of colours and materials comes something new and surprising, theatre of always different emotions.
