THE INFRASTRUCTURE
WHERE EXCELLENT SERVICES
MEET YOUR UNIQUE PLANS,
DESIGNS, AND IDEAS.

*At Monolith we plan, design, and create ceramics
that are shaped to transform your spaces the way
you have envisioned them.*

23 YEARS *of*
EXCELLENCE

We don't Just make Tiles,

WE DELIVER DREAMS.

A part of the Murano group of companies, Monolith is a new-age and uprising manufacturer and exporter of large-format ceramic tiles. We are rooted in India, creating products in-line with contemporary trends of architecture to deliver excellent experiences and lavish all across the world with our voguish surfaces.

Our slabs are designed within a framework that finds a blend of modern edge and classic vitality to become an essential choice for the future architectural and interior design style. This superior quality is achieved through research and innovation. We at Monolith believe in living life king size and our grand tiles are designed to evoke luxury and grandeur in every place they are installed.

Glazed Vitrified Tiles

Tile Body

The finest quality raw materials make up the resilient and robust tile body of Monolith tiles. The raw materials are ethically sourced and sustainably processed.

Engobe Layer

A highly opacious, fusible, and permeable engobe layer makes the second layer of the tiles of Monolith. The layer makes the tiles highly resistant to water absorption for longevity.

Glaze Layer

A high-quality glaze coating is added to the engobe layer of the Monolith tiles giving the tile properties of texture and shine and making them ready for design and color.

High Pigment Digital Printing Ink

The Monolith surfaces get their unique and versatile properties of the design, color, and more in this stage where digital printing is done on the glaze with high pigment ink for excellent results.

A confluence of art,
design, and
craftsmanship.
